

ADVANCED TRAINING FOR CHEMICAL TANKER CARGO OPERATIONS W/ COP

■ Scope

This course provides training for masters, chief engineers, officers and any person with immediate responsibility for the loading, discharging and care in transit or handling of oil cargo. It comprises a specialized training programme appropriate to their duties, including Chemical Tanker safety, fire safety measures and systems, pollution prevention, operational practice and obligations under applicable law and regulations. The course takes full account of section A-V/1-1-3 of the STCW Code adopted by the International Convention on Standards of Training, Certification and Watchkeeping for Seafarers, 2010, Manila Amendments.

■ Objectives

Provided they hold an appropriate certificate and are otherwise qualified in accordance with regulation V/1-1-3 of the International Convention on Standards of Training, Certification and Watchkeeping for Seafarers, 2010, Manila Amendments, those successfully completing the course should therefore be able to demonstrate the competence to undertake the tasks, duties and responsibilities listed in column 1 of Table A-V/1-1-3. In particular, after undergoing this course, the trainees shall be able to provide evidence of having achieved the required minimum knowledge, understanding and proficiency listed in column 2 of table A-V/1-1-3 and the required standard of competence in accordance with methods of demonstrating competence and criteria for evaluating competence as tabulated in columns 3 & 4 of Table A-V/1-1-3.

Specifically, trainees shall be able to:

- Demonstrate ability to safely perform and monitor all cargo operations;
- Exhibit familiarity with physical and chemical properties of Noxious Liquid Substances;
- Take precautions to prevent hazards;
- Apply occupational health and safety precautions;
- Undertake respond to emergencies;
- Take precautions to prevent pollution of the environment; and
- Monitor and control compliance with legislative requirements.

Duration: 40 HOURS
